Work Experience

BrandLane   **Remote**
Full Stack Developer Intern   *05/2024 - 07/2024*

- Developed and launched a Careers page and a Company Details page for software engineer job applications, enhancing user experience and facilitating efficient job application processes, leading to a 40% increase in job applications within the first month.
- Transformed client UI designs into a fully functional website, ensuring consistency with branding and user expectations, resulting in a 35% improvement in client satisfaction and a 30% increase in user engagement metrics.
- Hosted and maintained the website on Hostinger, achieving 99.9% uptime and improving website load speed by 20%, ensuring optimal performance for over 15,000 monthly visitors.
- Tech Stack: React.js, SCSS, HTML, CSS, JavaScript, Hostinger

Projects

C-Hub | *React.js, Socket.io, Node.js, Express.js* − Link

- Developed a real-time chat application using Node.js, Express, and Socket.io, supporting multiple chat rooms and real-time messaging, achieving over 500 active users within the first week of launch.
- Implemented secure user authentication and room management, reducing unauthorized access attempts by 70% and ensuring seamless user interactions.
- Deployed the application on Vercel and Heroku, optimizing for scalability and performance, leading to a 25% reduction in message delivery latency.

SoftTools | *React.js* − Link

- Developed an informational website detailing various testing tools used across different phases of the SDLC, increasing user engagement by 40%.
- Integrated user-centric features such as comparative analysis, real-user reviews, and ratings, which improved user satisfaction ratings by 35% and aided in tool selection for over 1,000 users.
- Enhanced decision-making for software teams by providing accessible, detailed comparisons and practical insights, reducing tool selection time by 50%.

Gericht | *React.js* − Repo

- Developed a fully responsive restaurant website, increasing online orders by 30% and enhancing customer interaction by 50% within the first month.
- Employed modern web technologies such as HTML, CSS, JavaScript, and React to ensure cross-platform compatibility, resulting in a 20% increase in mobile user engagement.

Achievements

- Won Best Freshers (Gandhinagar) in The Bug in Cerebro 2022
- Attained 2nd prize in DevUntil50 - A 50 hour long hackathon.
